

BCBH Events and Priority Access Times Priority times for users:

Certain facilities may be in use by multiple users at a time eg. landing stage. BCBH may implement boating priority to certain users at specific times to manage these facilities safely & effectively.

Currently agreed priority boating times are listed below.

Changes to the priority access times will be by agreement between BCBH and any other party whose priority access times may be affected (such agreement not to be unreasonably withheld or delayed).

When a Party has priority access, they may appoint an individual to control use of the landing stage ramp and landing stage areas including giving priority to their users' use of the area but in doing so they are expected to keep delays for other users to a minimum.

Events

BCBH may designate several days a year to be 'Event Days'. On these days, exclusive or priority access to all or parts of the facility will be granted to the event organisers and other priority access agreements will be suspended.

Unless otherwise agreed Event days involve exclusive use of whole site from 0800 to 1700.

The initial Event days are listed below. Where Events recur annually, the dates will be agreed with BCBH at least 4 months in advance and notified to other users. The addition of new Event days will be by agreement between BCBH and any party whose regular access times may be affected.
